

YEJIN KIM

ARTIST STATEMENT

The art I created is one way to feel relaxed. The relaxation and vacation can be felt through my art. In a busy modern society, my work escapes from the busy and frequent instructions. I want everyone to throw away their struggles in everyday life and transform it into my art.

**As soon as you stop wanting something,
you get it — Andy Warhol**

I hope that it will be an opportunity to look at what I have missed while watching my work during the time when people stop.
